

The mission of Arizona Christian Education Coalition (AZCEC) is to preserve the freedom for parents to choose and have access to the type of education which best serves their child.

When you sponsor AZCEC, you're doing more than just gaining visibility, you're standing shoulder to shoulder with families and educators who are committed to raising up the next generation in truth and faith. Your support helps keep membership accessible for schools of all sizes, allowing more leaders to grow, connect, and be equipped to lead with purpose. Together, we're ensuring that Christ-centered education not only survives—but thrives.

All sponsors must affirm and not contradict AZCEC's Statement of Faith. Sponsorships run from July–June each year.

WHY SPONSOR AZCEC?
